#### INTRODUCTION

#### **VALUATION SPECIFICS**

I have performed a valuation engagement, in accordance with the standards set forth by Institute of Chartered Accountants of India, of Veranda Learning Solutions Limited. This summary report will provide sufficient information to permit the intended users to understand the data, reasoning, and analyses underlying the valuation analyst's conclusion of value.

#### **PURPOSE AND INTENDED USE**

Valuation of Equity shares for Preferential Allotment for consideration other than cash of Veranda Learning Solutions Limited for acquiring shares of Veranda Administrative Learning Solutions Private Limited, BB Publications Private Limited and Navkar Digital Institute Private Limited in terms of Articles of Association of company and Regulation 163(3) of SEBI ICDR Regulations

#### **INTENDED USERS**

The distribution and use of this Report is restricted to the above-mentioned client, the client's legal and financial advisors. The valuation Report shall not be distributed to outside parties to obtain credit or for any other purposes. Possession of the Report does not carry with it the right of publication of all or part of it, nor may it be provided to any third parties. I do not assume any liability, obligation or accountability to any unauthorized third-party users of the Report under any circumstances.

#### **VALUATION DATE**

The result of this valuation is my conclusion of value as of 10<sup>th</sup> December, 2024. I have requested and analysed financial data up to and including the valuation date and have made inquiries into material subsequent events that may be known or knowable at 10<sup>th</sup> December, 2024.

## STANDARD OF VALUE

As was appropriate, this valuation engagement used fair market value as the standard of value. This is the most appropriate standard of value to ensure receipt of fair market value to all concerned.

The price, expressed in terms of cash equivalents, at which property would change hands between a hypothetical willing and able buyer and a hypothetical willing and able seller, acting at arms- length in an open and unrestricted market, when neither is under compulsion to buy or sell and when both have reasonable knowledge of the relevant facts.

#### PREMISE OF VALUE

The premise of value is the assumption regarding the circumstances in which an entity, or the entity's assets, would be sold. The International Glossary of Business Valuation Terms defines the following premises:

*Going Concern Value* - the value of a business enterprise that is expected to continue to operate into the future. The intangible elements of Going Concern Value result from factors such as having a trained workforce, an operational plant, and the necessary licenses, systems, and procedures in place.

*Liquidation Value* – the net amount that would be realized if the business is terminated and the assets are sold piecemeal. Liquidation can be either "orderly" or "forced."

*Orderly Liquidation Value* – liquidation value at which the asset or assets are sold over a reasonable period of time to maximize proceeds received.

*Forced Liquidation Value* – liquidation value, at which the assets or assets are sold as quickly as possible, such as at an auction.

As of the valuation date the Company was not contemplating liquidation. Accordingly, the Company was valued as a going concern entity.

#### **SOURCES OF INFORMATION**

In performing the valuation engagement, I was provided with, and relied upon various documents including, but not limited to, the following:

- Audited financial statements of the company for financial year (FY) 2018-19, 2019-20,
   20-21and 21-22, 22-23 and 23-24.
- o Un-Audited Published Results as on 30th September 2024.
- o Financial projections for 4 years and 6 months have been given.
- Shareholding pattern as on 6<sup>th</sup> December 2024
- o Discussions with the Management.
- In addition to the above, I have also obtained such other information and explanations from the Management as considered relevant for the purpose of the valuation.
- o Below mentioned metrics have been sourced from reliable public domain:
- Risk free rate has been taken from India Government Bond 20Y | 2024 from Clearing Corporation of India @ 6.79%
- o Risk Premium is the difference between market rate and risk-free rate of return.
- o Beta has been sourced from BSE Website for target company
- o Data for Market approach has been sourced from Screener.in
- Used Capital Asset Pricing Model (CAPM) for arriving at return on equity. CAPM is widely used for arriving return on equity.
- It is assumed that the cashflow continue to grow at 3% every year after forecast period
   Used Gordon (constant) growth model for arriving at terminal value.
- All numbers are stated in Indian Rupees-INR in Lakhs unless other-wise stated in the Report.

The information provided by the Clients, Company management, or other representatives, in the course of this engagement, has been accepted without any independent verification. This Report is, therefore, dependent upon the information provided. A material change in critical information relied upon in this Report would be cause for a reassessment to determine the effect, if any, upon my conclusion. I have not provided attest services in regard to any of the sources.

#### ASSUMPTIONS AND LIMITING CONDITIONS

The valuation presented in this Report is contingent on the assumptions and limiting conditions as found in "Scope, Limitations and Exclusions" and those found elsewhere in this Report. The Clients are provided with a copy of this Report prior to its final issuance to ensure the accuracy of facts and statements attributed to the Client and Company management.

#### **SUBSEQUENT EVENTS**

Generally, the valuation analyst should consider only circumstances existing at the valuation date and events occurring up to the valuation date to form his/her conclusion of value. Subsequent events are indicative of conditions that are not known or knowable at the valuation date. The valuation would not be updated to reflect those events or conditions. I did not, in the course of our engagement, note any subsequent events that would warrant disclosure in this Report.

## PROCEDURE ADOPTED FOR VALUATION

- Discussions with management were held from time to time and they expressed their future plans, projections and shared contract and agreement with customers.
- Historical financials were provided and analysed for growth and profitability. Future potential of business and capacities were discussed.
- Data provided is adequate for performing Valuation exercise. Current state of operations of the company were discussed in detail.
- Evaluated various valuation methods and computed the value using each of the applicable methods.
- NSE, BSE sites searched for highest trading volumes and market approach applied.
- Arrived at the fair value taking cognizance of the AOA and the SEBI- ICDR Regulations.
- Prepared and issued valuation report.

#### **VALUATION APPROACHES AND METHODS**

Valuation of a business is not an exact science and depends upon what it is worth to a serious investor or buyer who may be prepared to pay a substantial goodwill. This exercise may be carried out using various methodologies, the relative emphasis of each often varying with:

- 1. Whether the entity is listed on a stock exchange
- 2. Industry to which the company belongs
- 3. Past track record of the business and the ease with which the growth rate in cash flows to perpetuity can be estimated.
- 4. Extent to which industry and comparable company information is available.

Ind VS 301 on Business Valuation deals with valuation of a business or business ownership interest (i.e., it includes valuation of equity share). This standard specifies that following three approaches are used for valuation of business / business ownership interest:

Market Approach Income Approach Cost Approach

Each of the above approaches are discussed in the following paragraphs.

## Cost Approach or Net Asset Approach:

The value arrived at under this approach is based on the value per share of the underlying net assets and liabilities of the company, either on book value basis, replacement cost basis or reproduction cost basis. This approach is mainly used in case where the firm is to be liquidated, i.e., in case where the assets base dominates the earnings capability.

## **Income Approach**

Value arrived under this approach is based on maintainable or future amounts (e.g., cash flows or income and expenses) converted into a single current value (e.g., discounted or capitalised amount). Under this technique, either: the projected free cash flows from business operations available to all providers of capital are discounted at the weighted average cost of capital to such

capital providers, from a market participant basis, and the sum of such discounted cash flow is the value of the business, from which value of debt and other capital is deducted, and other relevant adjustments made to arrive at the value of equity. The projected free cash flows from business operations available to equity shareholders (after deducting cash flows attributable to the debt and other capital providers) are discounted at the cost of equity, from a market participant basis, and the sum of such discounted free cash flows, after making other relevant adjustments, is the value of equity

## Market Approach:

Value arrived at under this approach normally uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities or a group of assets and liabilities, such as business. Under this approach following valuation methods are commonly used: Market price method, which uses traded price observed over a reasonable period while valuing assets which are traded in the active market.

Comparable Companies Multiple (CCM) method, which involves valuing an asset based on market multiples derived from prices of market comparable traded on active market. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. To the value of the business so arrived, adjustments need to be made for the value of contingent assets/liabilities, surplus Asset and dues payable to preference shareholders, if any, in order to arrive at the value for equity shareholders.

**Comparable Transaction Multiple (CTM) method,** which involves valuing an asset based on transaction multiples derived from prices paid in comparable transactions of assets to be valued.

#### **Applicable Provisions of ICDR 2018**

As stated in the previous section, we have to determine the floor price of Securities of the Company, as per the relevant provisions of ICDR Regulations as applicable, which are as follows

In terms of the applicable provisions of SEBI (ICDR) (Amendment) Regulations, 2022, the

price at which Equity Shares shall be allotted shall not be less than higher of the following

a. 90 trading days volume weighted average price of the related equity shares quoted on the recognized stock exchange preceding the relevant date. or

b. 10 trading days volume weighted average prices of the related equity shares quoted on a

recognized stock exchange preceding the relevant date.

Provided that if the Articles of Association of the issuer provide for a method of determination which results in a floor price higher than that determined under these regulations, then the same shall be considered as the floor price for equity shares to be allotted pursuant to the preferential issue."

In this regard the Articles of Association ("AOA") of the company does not categorically mention any specific method for determining the floor price for the preferential allotment of equity shares. Therefore, the floor price shall be determined as per the method prescribed under Regulation 164(1) of SEBI (ICDR) Regulations, 2018.

**As per Regulation 161-** "relevant date" means- "in case of preferential issue of equity shares, the date thirty days prior to the date on which the meeting of shareholders is held to consider the proposed preferential issue".

**As per Regulation 164(5)** -where the traded turnover on any recognized stock exchange during the 240 trading days preceding the relevant date, is at least ten per cent of the total number of shares of such class of shares of the issuer.

## Market Approach:

## 1. As per the Provisions of Regulation 164(1) of ICDR 2018

a. As stated above, the equity shares of the Company are listed on NSE and BSE. There is regular transaction in the equity shares with reasonable volumes. Further, the shares of the Company are frequently traded on BSE and NSE in terms of Regulation 164(5) of ICDR 2018, with maximum volume recorded on NSE- https://in.investing.com/equities/veranda-learning-solutions-pvt-historical-data

b. Therefore, we have considered the share prices quoted on NSE for determining the floor price of the Company. The value per share of the Company as per Regulation 164 (1) of ICDR 2018 considering the relevant date as of  $10^{th}$  December 2024 is Rs. 292/-(Clause 2 (a) of Market Method)

## 2. Valuation as per Regulation 163 (3) of ICDR 2018

Specified securities may be issued on a preferential basis for consideration other than cash. Provided that consideration other than cash shall comprise only swap of shares pursuant to a valuation report by an independent registered valuer, which shall be submitted to the stock exchange(s) where the equity shares of the issuer are listed.

## b. Comparable Companies Method

I have carried out analysis of listed comparable companies in the Education Industry like Addictive Learn, Career Point, CL Educate, Global Education etc. with respect to the size of operations, capacity, revenue, EBITDA, EBITDA Margins (%), etc. I have undertaken valuation of Veranda Learning Solutions as per EV/Revenue multiple of listed comparable companies.

## Valuation as per EV/Revenue Multiple

I have analysed the EV/Revenue multiple of the Company vis-a`-vis comparable companies. To arrive at valuation of the Company as CCM Method we have considered the EV/Revenue multiple of 0.86x is considered to arrive at Enterprise Valuation.

The Enterprise Value so arrived is adjusted for Debt Outstanding, and other adjustments including Cash & Cash equivalents, other surplus assets etc. as on  $31^{\rm st}$  March 2024 to arrive at Equity Valuation.

Financial results for the year ended on  $31^{st}$  March 2024 were made available to me for comparison purposes.

#### SCOPE, LIMITATIONS AND EXCLUSIONS

I have relied upon the information, data, explanation and representations given to me by the Management including financial information, significant transactions and events occurring subsequent to the balance sheet date. I have assumed such representations to be reliable and my conclusions are dependent on such information being complete and accurate in all material respects.

I have not carried out a due diligence or audit of Transaction Undertaking for the purpose of opining on the share entitlement ratio nor have I independently investigated or otherwise verified the data provided. my work was not designed to verify the accuracy or reliability of the information provided to us and nothing in this report should be taken to imply that I have conducted procedures, audits or investigations in an attempt to verify or confirm any of the information supplied to us.

My review and analysis has been limited to the above-mentioned procedures and my analysis is subject to this limitation. My reliance and use of this information provided by the management should not be constructed as expression of my opinion on it and I do not and will not accept any responsibility or liability for any inaccuracy in it.

The exercise of valuation is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. There is, therefore, no indisputable single share entitlement ratio. While I have provided my opinion of the Share Entitlement Ratio based on the information available to us and within the scope and constraints of my engagement, others may have a different opinion as to the same.

This Report is furnished solely for purpose of arriving at Fair value of Company for purposes of Merger. The Company shall not use this report for any other purpose other than stated above. This valuation report is valid only as on the Valuation date. The fee for the engagement is not contingent upon the results reported.

My work does not constitute an audit or certification of the subject Company's financial. Accordingly, I am unable to and do not express any opinion on the accuracy of information referred to in this report. I assume no responsibility for any errors in the information submitted by the management and their impact on the present exercise.

This Valuation report is issued on the understanding that the subject Company has drawn my attention to all the relevant matters, of which it was aware, concerning the Company's financial projection and business which may have an impact on my Report.

The Report assumes that the Companies comply fully with relevant laws and regulations applicable in all its areas of operations, and that the Companies will be managed in a competent and responsible manner Further, this Report has given no consideration to matters of a legal nature including issue of legal title and compliance with local laws, and litigation and other contingent liabilities that are not disclosed in the audited/unaudited balance sheet of the Companies. my conclusion of value assumes that the assets and liabilities of the Companies, reflected in their respective latest balance sheets remain intact as of the Report date.

I am an eligible Registered Valuer as per Rule 3 of Registered Valuer and Valuation Rules registered with ICAIRVO (Institute of Chartered Accountants of India-Registered Valuer)

Neither of my employees nor myself have any financial interest in the company.

A valuation of this nature is necessarily based on the prevailing stock market, financial, economic and other conditions in general and industry trends in particular as in effect on and the information made available to us as of, the date hereof Events occurring after the date hereof may affect this report and the assumptions used in preparing it and I do not assume any obligation to update, revise or reaffirm this report.

The valuation of companies and assets is made based on the available facts and circumstances and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. Although every scientific method has been employed in systematically arriving at the value, there is no indisputable single value and the estimate of the value is normally expressed as falling within a likely range.

To comply with the client request, I have provided a single value for the overall Fair Market Value of the assets of company.

I consider the valuation to be reasonable based on the information available, others may place a different value.

The actual market price achieved may be higher or lower than my estimate of value (or range of value) depending upon the circumstances of the transaction (for example the competitive bidding environment), the nature of the business (for example the purchaser's perception of potential synergies).

The knowledge, negotiating ability and motivation of the buyers and sellers and the applicability of a discount or premium for control will also affect actual market price achieved. Accordingly, my valuation conclusion will not necessarily be the price at which actual transaction will take place.

Where I have relied on data, opinions or estimates from external sources (believe it to be reliable), reasonable care has been taken to ensure that such data has been correctly extracted from those sources and /or reproduced in its proper form and context. No procedures have been performed to verify accuracy and completeness of information

My responsibility is only to the authority/client that has appointed me under the terms of the engagement letters. I will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall I be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the client or companies, their directors, employees or agents.

I have made certain assumptions in relation to facts, conditions or situations affecting the subject of, or approach to, this exercise that has not been verified as part of the engagement rather, treated as "a supposition taken to be true". If any of these assumptions prove to be incorrect, then my estimate on value will need to be revised.

I express no opinion as to how closely the actual results will correspond to those projected/forecast as the achievement of the forecast results is dependent on actions, plans and assumptions of management.

In the absence of a statement to the contrary, I have assumed that no hazardous conditions or materials exist which could affect the subject business or the assets. I are not qualified to establish the absence of such conditions or materials, nor do I assume the responsibility for discovering the same. my valuation takes no such liabilities into

account, except as they have been reported to the RV by the client or by an environmental consultant of the client, and then only to the extent that the liability was reported to us in an actual or estimated amount.

I have assumed that the business continues normally without any disruptions due to statutory or other external/internal occurrences. In any extreme situation if the value has to be defended in any court, it will be a separate assignment which will be chargeable based on the work involved.
